assignment of benefits

I hereby assign and convey directly to the Excel Orthopedics, as my designated authorized representative, all medical benefits and/or insurance reimbursement, if any, otherwise payable to me for services, treatments, therapies, and/or medications rendered or provided by the above-named health care provider, regardless of its managed care network participation status. I understand that I am financially responsible for all charges regardless of any applicable insurance or benefit payments. I hereby authorize Excel Orthopedics to release all medical information necessary to process my claims. Further, I hereby authorize my plan administrator fiduciary, insurer, and/or attorney to release to the above-named health care provider any and all Plan documents, summary benefit description, insurance policy, and/or settlement information upon written request from the above-named health care provider or its attorneys in order to claim such medical benefits.

i have read and fully understand this agreement.

patient signature _____ date _____

Excel Orthopedic does not discriminate against Race, Color, Religion, National Origin, Ancestry, Sex or handicap.

payment of services

Payment for services rendered is ultimately the patient responsibility. Your insurance policy is a contract between you and your insurance company. Your responsibility is to give us the correct information about your insurance company. Compliance must be executed with the rules of your insurance provider including but not limited to: valid referral form and pre-certification of testing and/or surgery in order for your claim to be paid. Eligibility for procedures does not always confirm certification, authorization or payment. We will file your insurance claim. If claims are denied because of failure to comply with the insurance company requirements, the denied amount will be your responsibility. For patient balances and self-pay accounts, we accept cash, check, Visa and MasterCard. In the event of non-payment, you will be responsible for any collection and/or legal fees associated with the collection of the balance due.

co-payments and deductibles

As required by your insurance company, you must pay your co-pay at the time of service. Failure to pay is a violation of your contract with your insurance company. The deductible amounts are the patient responsibility. Your insurance is not responsible for reimbursement or payment until the deductible amount is satisfied.

non-covered services

Not all insurance plans cover all services. In the event your insurance plan determines a service to be not covered, you are responsible for the complete charge. We will provide an Advance Beneficiary Notice as needed.

physician non participation in your insurance plan

If you are insured with an insurance plan with which we do not participate you would be responsible for the difference between the billed charges and the "Out of Network" payment. Questions should be directed to your insurance plan.

no insurance coverage

If you do not have insurance coverage, we expect payment in full prior to rendering services. In certain circumstances, payment plans may be made in advance. If you default on your promised payment, we will refer your account to a collection agency.

workers' compensation claims

We file workers compensation claims, however your employer must approve treatment and the bill for services rendered must be sent to your employer or their Workers' Compensation carrier. If your employer does not approve treatment and you select us for treatment, you will be responsible for the bill.

lawsuits and third party billing

We will accept third party billing on a case-by-case basis. You are responsible for payment of our regular fees at the time of service unless other arrangements are made in advance with our billing company.

**I have read and understand the practice's financial policy and
I agree to be bound by its terms.**

consent to obtain medication history

Our medical practice has adopted an electronic medical record system in order to improve the quality of our services. This system also allows us to collect and review your “medication history.” A medication history is a list of prescription medicines that we or other doctors have recently prescribed for you. This list is collected from a variety of sources, including your pharmacy and your health insurer.

An accurate medication history is very important to helping us treat you properly and in avoiding potentially dangerous drug interactions.

By signing this consent form you give us permission to collect, and give your pharmacy and health plan permission to disclose information about your prescriptions that have been filled at any pharmacy or covered by any health insurance plan. This includes prescription medicines to treat AIDS/HIV and medicines used to treat mental health conditions, such as depression. This information will become part of your medical record.

This medication history is a useful guide, but it may not be completely accurate. Some pharmacies do not make drug history available to us, and the drug history from your health plan might not include drugs that you purchased without your health insurance. Your medication history might not include over the counter medicines, supplements or herbal remedies. It is still very important for us to take the time to discuss everything you are taking, and for you to point out to us any errors in your medication history.

Additionally, please list your preferred pharmacy in the lines listed below

pharmacy

street address | street address line 2

city | state | zip code

phone number | fax number

I give permission for you to obtain my medication history from my pharmacy, my health plans and my other healthcare providers.
